

Hipoalergiczna biżuteria

Skin Friendly Jewellery

BLOMDAHL
medical beauty

Czy lubisz piękną biżuterię?

My również. Ponadto uważamy, że powinnaś mieć możliwość noszenia biżuterii, która nie zawiera niklu, kadmu, ołowiu oraz innych nieodpowiednich materiałów. Twoje dzieci lub wnuki również. Dlatego Blomdahl opracował bezpieczny system przekłuwania uszu oraz koncept biżuterii hipoalergicznnej przyjaznej dla skóry. Bezpieczny sposób, aby dobrze wyglądać każdego dnia.

Higieniczne opakowanie

Jesteś pierwszą osobą, która dotknie Twojej nowej biżuterii Blomdahl.

Kolczyki dostarczane są w higienicznym opakowaniu Clean Pack, zabezpieczonym etykietą.

www.blomdahl.pl

Bizuteria dla wszystkich, również dla alergików

Hipoalergiczna Bizuteria Blomdahl została opracowana po konsultacjach z lekarzami dermatologami. Badania dowodzą, że nasze kolczyki są bezpieczne dla Twojej skóry. Wiele osób z alergią, które wypróbowały naszą biżuterię, twierdzi, że jeszcze nigdy nie mogły tak długo nosić kolczyków bez żadnych problemów. Do wyboru są kolczyki z Czystego Tytanu Medycznego lub Plastik Medycznego. Część kolczyka, która nie ma bezpośredniej styczności ze skórą jest platerowana w kolorze złota lub srebra.

Alergia na nikiel

Alergia na nikiel jest nabytą alergią kontaktową skóry, która powstaje i później rozwija się w wyniku ciągłego kontaktu z metalowymi przedmiotami, które zawierają nikiel, takimi jak: zamki, guziki, monety czy biżuteria. Alergii na nikiel nie można wyleczyć. Jedynym rozwiązaniem jest unikanie kontaktu z metalami zawierającymi nikiel. Jednak może to być bardzo trudne, ponieważ wszystkie metale (nawet metale szlachetne, takie jak: złoto, srebro i platyna) zawierają nikiel, chociażby w postaci domieszek. Dlatego też, nie ma metalowych kolczyków, które są całkowicie wolne od niklu.

Nakładając nawet złote kolczyki, możemy doświadczyć uczucia uciążliwego bólu i swędzenia. Badania kliniczne potwierdziły, że przekłuwanie uszu kolczykami ze stali nierdzewnej oraz noszenie kolczyków ze złota lub srebra są głównymi czynnikami zwiększającymi ryzyko rozwoju alergii na nikiel, którą dotknięte jest aż 20-30% kobiet na świecie.

Ochrona klientów

Firma Blomdahl współpracuje z dermatologami ze Szpitala Uniwersyteckiego Skåne w Malmö, w Szwecji. Dzięki temu, firma jest informowana na bieżąco o wynikach badań nad toksycznością różnych materiałów. Wiedza ta pozwala dobrać bezpieczne materiały do produkcji biżuterii, wyprzedzając nawet obowiązujące normy prawne. Biżuteria oprócz niklu może również zawierać inne alergeny, takie jak kobalt, pallad, złoto, chrom, żywice epoksydowe i akrylany. Dodatkowo w jej składzie mogą się pojawić także substancje toksyczne, takie jak ołów i kadm, oraz substancje rakotwórcze np. formaldehyd. Mając świadomość olbrzymiej odpowiedzialności za zdrowie Klientów, Blomdahl do produkcji biżuterii stosuje wyłącznie starannie dobrane materiały.

Przekłutaś sobie uszy?

Pamiętaj, że ranki po przekłuciu uszu goją się ponad rok. Proces gojenia przebiega zdecydowanie lepiej, gdy powietrze ma swobodny, niczym nie ograniczony dostęp do miejsca przekłucia. Dlatego kolczyki z zawieszkami są dobrym wyborem w okresie gojenia się uszu.
